Friends of John Delaney ("the Committee") submits this response to the Commission's letter dated December 19, 2012, regarding its 30 Day Post-General Report. Please note that the following paragraph regarding primary debt contribuitons also applies to the RFAI's regarding the October Quarterly Report and the 12-Day Pre-General Report, also dated 12/19/12.

Regarding the Committee's receipt of contributions after the primary election that were designated for the primary, the Committee had and continues to have net debts outstanding from the primary election, and has accepted contributions properly designated and received for primary debt retirement. After the primary election, the Committee continued to owe \$250,000 to the candidate from loans he made for that election. It also made a number of disbursements after the date of the primary election to defray primary election expenses. The Committee has amended its July Quarterly Report to clarify the \$219,150.89 worth of expenses were incurred for the primary election, and not for the general election as the prior report indicated.

Regarding contributions disclosed on Schedule A of the Committee's report, we have amended the report to reflect accurate election designations.

Regarding itemized disbursements, the Committee has amended its report to provide the requested description for "event fees." The analyst also requested a more detailed description of "field contractor." Disbursements for "field contractor" refer to individuals paid by the committee on a contractual basis for services and assistance with campaign field work, i.e. get-out-the-vote efforts, and other election day-oriented campaign services.

If you have further questions, please contact the Committee.
